

Project Management Services and Support

The SPi Group Inc. (SPi) offers a wide range of project management and support services. SPi's team of professionals are highly experienced in the areas of:

- Project management
- Business analysis
- Development
- Quality assurance

SPi's expertise in developing specialized applications in the energy sector is unparalleled. SPi's development expertise spans the following:

- C, C++, Java and J2EE using JBoss, Oracle and many open source tools and technologies (Torque, Hibernate, JBPM etc.)
- Standard development tools (CVS, Bugzilla, Jira, CruiseControl etc.) used to support development and QA processes
- XML experts: SPi's main products and services are all based on XML transaction sets
- EDI
- Deployment platforms, such as Red Hat Linux and Windows

In addition, SPi is a leader in the provision of large scale data management services, and has a *Personal Information Protection and Electronic Documents Act* (PIPEDA)-trained privacy officer.

SPi's project management and support services are available à la carte, or we can provide a complete team of resources to undertake a given task or project.

About SPi

The SPi Group Inc. is a Toronto-based provider of product and services primarily to the utility and energy industry. SPi's technology portfolio includes secure, reliable and auditable data transport solutions, and a variety of billing and settlement solutions, based on portable, open standards. SPi's team of highly skilled IT and energy industry professionals developed these technologies that operate mission-critical business processes for over 70 public and private sector clients.

About ERTH Corporation

ERTH Corporation is a dynamic family of energy companies with a strategic vision to grow and invest in parallel businesses that collectively serve North America's energy and utility industries. The group's electricity distribution, services, consulting and software companies service over 180,000 customers in Canada and the United States.
